DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- 2. Claims 1, 2, 4-17 and 19-25 are rejected under 35 U.S.C. 102(b) as being anticipated by Larson et al. (U.S. 5,704,416).

Larson discloses a two-phase component cooler comprising all of the applicant's claimed and disclosed limitations of the instant invention.

Allowable Subject Matter

3. Claims 3 and 18 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The following references are cited for disclosing related limitations of the applicant's claimed and disclosed invention. Budelman, Burward-Hoy (2 patents), Miyazaki et al, Phillips, Ogushi et al, Dunbar, Huang, Ohashi et al, Cheon,
